Project Management

Profile

My employment background is in Fin-tech and travel risk management operations however, my passion is the web and the technology that powers its progression. I am currently working with Vue JS and Google's Firebase platform, whilst self studying the React and Laravel ecosystems. Outside of my work, I am passionate about angling, photography and music.

Experience

OSINT : SRC

OSINT : SRC is an open source, operational intelligence sharing platform built around user generated content and implemented using Vue JS and Google's Firebase.
